RAILROAD TRIAL FIGURES—Shown above are the two central figures in the trial held before Mayor John Scaife last week. George Duke on right was charged with hitting and threatening Charles Miller on the left. Dukes was found guilty of a misdemeanor charge, and received a \$25.00 fine and a 30-day suspended sentence.

"When I got to Carroll Avenue a car pulled up alongside of me and a man jumped out. The car belonged to Lacey Green and he was driving it at the time. The man, who I had never seen before, asked me where I was coming from. I told him from work. Then he said to me, 'Don't you know you are taking someone's job. I said no I didn't. Then he asked me if I knew him. I told him that I didn't and didn't care to.'"

Miller continued, "That is when he hit me with his right hand. He knocked me down. Then he pulled out a knife and told me I had better not go back to work. Lacey Green then told me I had better listen to him because he meant what he said. When the police officers took me to George Duke's house I recognized him as the man who had hit me and threatened me with the knife."

S. S. C. Finishes  
Third; Bay High  
Sixth in District

With three first place finishes and 33 points, St. Stanislaus finished third in the District Eight Track Meet this past weekend in Pascagoula.

Bay High, with one victory, and 19 points finished sixth in the field of ten teams, which put Biloxi on top and Gulfport second. The high scorer for the Rockachaws was Alfonso Aldape, the South American speedster, who gained a first place in the 100 yard dash and was beaten by the small margin of several inches in the 220-yard dash. Vasquez was also the anchor man in the victorious relay team.

The foreign import, who is only a sophomore in high school, defeated the high rated Roland Bond of Biloxi for the second consecutive time in the 100 yard sprint. And likewise Bond performed the same feat by taking the measure of the Rockachaw cinderman in the 220, as he had done previously in the dual meet between the schools.

The next winner for St. Stanislaus was the 880 yard relay, composed of James Grace, Larry Russell, Bob Pfeuffer and Vasquez.

This team just recently set a new modern Stanislaus record, by winning this event in the time of 1:37.

In the District, over a slow track, the relay team was clocked at 1:39.

And last, but surely not least, in the parade of Rockachaw winners, was James Schexnayder, who added another new modern day record in the St. Stanislaus annuals. Schexnayder captured first place in the shot put event with a toss of 45 feet five inches.

Charles Moran was the lone winner for the Bay High Tigers. He threw the discus 129 feet, seven inches for the first place points.

Cancer Fund  
Campaign Begins

The 1955 drive to obtain funds for Cancer research has begun in Hancock County. Mrs. Wilmer Thibeaux has been named as head of this year's campaign here.

"OUCH IT HURTS"—Says little A. J. Orr of Clermont Harbor, son of Mr. and Mrs. J. A. Orr as Mrs. Ezelda Ling gives him the new polio vaccine at the County Health Department.

Polio vaccinations began in Hancock County this week, and local doctors stated that within the next two or three weeks they expected to receive supplies of the vaccine to be given by the family physician.

Only the first and second grade children of the county are eligible for the free shots now being given at the health department.

"There is no need for parents to get panicky," a local doctor stated, however, "We expect to have plenty of supplies of the Salk vaccine within the next few weeks."

It is advised that all children from one to twelve years of age be given the polio shots. Pregnant women are also advised to take them.

Some confusion has been caused by inconsiderate persons whose children were eligible for the free shots for first and second grades, the health department revealed. These persons did not return on time slips authorizing their children to be vaccinated. Now some of the children are requesting vaccination and the supplies ordered are thrown out of balance.

It will be first come first served for the children whose parents first requested vaccination," the department said.

Family physicians, most of whom attended a closed circuit television program concerning the polio program last week, have already ordered their supplies. They expect to start shots soon and have all requests taken care of by the time hot weather is here.

Cost of the shots will average about five dollars each, one of the local doctors said. Exact prices will be the price of a regular office visit, plus cost of the vaccine.

A physician was also quoted as saying he had received about 50 calls thus far from parents ready to give their children the shots.

No adverse reaction at all has been noted in experiments with the new drug, so parents and children are assured of no trouble on that score, doctors said.

Immunization against polio requires a few weeks following vaccination. Thus far no polio cases have been reported in Hancock County this year.

Already vaccinated have been first and second graders from Leetown, Catahoula, Lakeshore, Clermont Harbor, Waveland, St. Joseph's, Episcopal Day School, Aaron Academy, Gainesville, Dedeaux and Bay High.

Today children from Sellers and St. Rose will receive the shots and on Friday Taylor, Webb, Kiln, Logtown and Valena C. Jones children will receive them.

A copy of "Showboat" was the stage decoration while the bleachers each depicted different songs which were: Dixieland, Beautiful Dreamer, Old Man River, Louisiana Hayride, Carry Me Back to Old Virginia, and My Old Kentucky Home. Sophomores served soft drinks and provided entertainment. They sang "Mammy's Little Baby Loves Shortin' Bread." Then the whole sophomore class sang "Sweet Kentucky Babe." The juniors presented the seniors little cotton bale and dolls as favors. The orchestra was Jack Sollen's.

The Kiln School had its Junior-Senior Prom at the Yacht Club. The theme was "Stars in the Garden." The club was decorated as a garden and had about a thousand stars hanging overhead. The orchestra was from the Pass.

## The Great Improvement

The splendid work on the beachfront by the City of Bay St. Louis is a wonderful way to start the summer. Cleared off and enlarged, the beach will give our folks many a happy moment during the hot months to come. But there's something more for us to remember. That beach, in a way, is the living room of Bay St. Louis. It is there we receive a tremendous number of our visitors. So treat it like a living room, and remember your guests. Don't clutter it with trash. Be careful of the rights and pleasures of others. Be courteous and clean.

## Your Dimes Did It

For years there have been drives for money by the March of Dimes. The fight was against polio. And now we have won. The perfection of the Salk serum puts this once dread disease in the same class with small pox - almost a thing of the past. The serum is 90 per cent effective. This is about as good as any serum. But perhaps the most wonderful thing of all is the distribution of the serum. In the first place, its effectiveness was not revealed until the serum was ready for the market. This prevented panicky demands that might come too soon. In the second place, the health departments and doctors were ready. The state legislature had the money appropriated for the school children; the doctors had decided upon orderly plans of operation. In the test nearest here - Laurel - the serum was 100 per cent effective last year. Actually, there were only two cases of polio last year in Hancock County, even without the serum. So there is no great haste in inoculation. Eventually, though, all children will be inoculated—and new victims of the disease will be a thing of the past. That took years and dollars of research. And YOUR dimes were responsible.

## There's more than meets the eye...

There is a wealth of skills and know-how involved in providing you with dependable natural gas service. Behind the pipe lines and other facilities necessary to bring adequate supplies of natural gas to you are many dry holes that are drilled along with the producing wells.

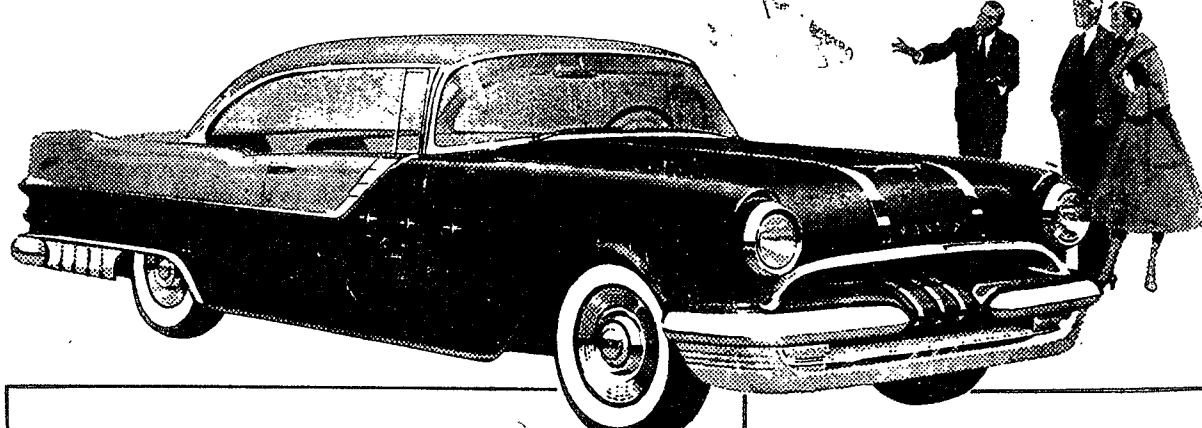

Producers make large investments to explore for and find natural gas. They are entitled to a reasonable return on these investments... if we expect them to continue taking the financial risks involved in the drilling necessary to produce more and more natural gas, for...

...this is a search that must never end

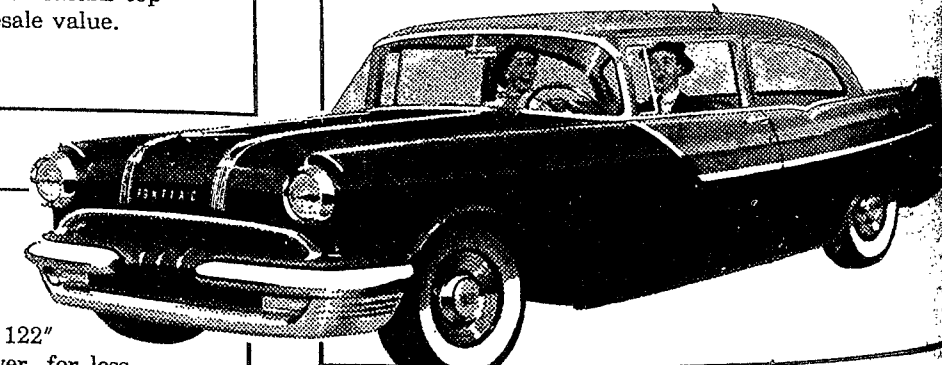

This man is firing a "perforating gun" located a mile or more down in a well... one of many steps in the long, costly search for natural gas.

## Here are the Three Greatest New-Car Values in America!
